What is a State Service Commission?

State Service Commissions provide AmeriCorps funding to AmeriCorps state programs through annual grant competitions. Grants are made either directly to an organization or through an intermediary group that handles the distribution of grant funding.

State Service Commissions are also charged with encouraging volunteering in their states and often administer special volunteer initiatives.

Commissions consist of governor-appointed public agencies or private nonprofit organizations, made up of more than 1,200 private citizens serving on over 50 commissions, leading the nation's philanthropic and service movement as partners of AmeriCorps, the federal agency.

They serve at the state level in re-granting more than a quarter of a billion dollars from federal national service funds in addition to the more than $100 million annually from local sources to support citizen service and volunteerism in America.
What is AmeriCorps?

AmeriCorps strengthens our country by empowering AmeriCorps members and AmeriCorps Seniors volunteers to solve local problems nationwide.

In coordination with state and local entities, national service responds to the most pressing issues facing our nation. AmeriCorps members and AmeriCorps Seniors volunteers prepare for tomorrow’s jobs, reduce crime, connect returning veterans to jobs, fight the opioid epidemic, support seniors to live independently, make college more accessible and affordable, and help Americans rebuild their lives following disasters.

AmeriCorps grants are awarded to eligible organizations proposing to engage AmeriCorps members in evidence-based or evidence-informed interventions/practices to strengthen communities.

AmeriCorps Service: Direct vs. Indirect

DIRECT SERVICE

Direct Service refers to any form of assistance provided directly to the individuals, targeted groups and communities that make up the beneficiary population.

For example, direct service may entail face-to-face housing assistance, tutoring, or disaster response services.

Direct service may also entail hands-on environmental improvements performed by national service participants.

INDIRECT SERVICE

Indirect Service refers to the provision of skills, abilities, knowledge, and efforts to support a program or organization in fulfilling its primary mission, obligations and programming.

For example, indirect services do not involve the one-to-one provision of benefits between a national service participant and a member of the beneficiary community. Indirect services are capacity building activities provided by AmeriCorps members to affect institutional change within AmeriCorps-supported organizations with the intention of supporting or enhancing the program delivery model.
AmeriCorps Programs

**AmeriCorps State & National**
Members serve in either teams or individually through national and community-based private and public organizations. Members help solve community problems through direct and indirect service, in the areas of education, public safety, the environment, and other human needs such as health and housing.

**AmeriCorps NCCC**
AmeriCorps NCCC is a full-time service program that covers lodging and travel expenses, allowing young adults to serve on a team and make an impact in communities across the country while gaining valuable leadership skills.

**AmeriCorps VISTA**
Through capacity building activities such as fundraising, grant writing, research, and volunteer recruitment, AmeriCorps members in the VISTA program serve in an office setting and gain experience and leadership skills.
AmeriCorps State and National

Through direct service members build safer, stronger, healthier, and more united communities across the nation. Through these extraordinary acts of citizenship by ordinary Americans, AmeriCorps is improving the lives of tens of millions in our most vulnerable communities.

Examples of Service Activities:

- Financial education and tax preparation assistance
- Environmental stewardship and conservation
- Tutoring and mentoring children
- Increasing access to healthcare
- Housing resources and services
- Disaster preparedness and response
- Public safety and crime reduction
AmeriCorps VISTA (Volunteers in Service to America) members serve in a professional setting building partnerships, writing grants, research, and organizing volunteers to build the capacity of an organization and enhance its ability to serve the community.

VISTAs perform indirect service, which means they help build the capacity of organizations to deliver valuable direct services to people living in poverty. VISTAs typically create new programs, write grants, and recruit volunteers.

VISTA programs are managed by AmeriCorps at Regional Offices throughout the country.

Responsibilities of Subgrantees

- Design or replicate a successful intervention to address a community need that is evidence-informed
- Develop and execute a successful recruitment and selection process
- Orient, supervise, and train members during their term of service
- Track and report performance measures that capture program outputs and outcomes
- Responsible for contributing match funding to support the project
- Employing strong fiscal and program management systems
Program Design Considerations

A few things to consider when developing the structure of your proposed AmeriCorps program:

• How many members do I need and in what slot type?
• Where will the service activities take place?
• Will services be based out of a partner organization or in scattered sites?
• Who are my community and service partners?
• What can my partners provide and what is their capacity?
• Where will my organization acquire match funds?
• Do we partner with other organizations who can provide the living allowance or other benefits to members during their term of service?

Unique Entity Identifier and System for Award Management (SAM) and DUNS number

• All applicants must register with the System for Award Management (SAM) and maintain an active SAM registration until the application process is complete, and if awarded a grant, the active SAM registration must be maintained throughout the life of the award.

• Applicants must use their SAM-registered legal name and address on all grant applications to GOVS.
  • The Federal government is implementing Unique Entity Identifiers (UEI) as part of the SAM registration process to eventually replace DUNS numbers. AmeriCorps may ask applicants to add the UEI to their application as part of the clarification or pre-award process. AmeriCorps is adding a field to capture the UEI in eGrants. If you already have a UEI and the UEI field is available in eGrants, you can enter it at the time you submit your application.

• Applications must include a DUNS number.
